**SHRI CHIMANBHAI HAPANI**  
FOUNDER

Kich Architectural Products Pvt. Ltd. is Rajkot based India's leading manufacturer in the premium segment of Architectural Hardware, Bathroom Accessories and Handrails & Baluster Systems. With a vision to deliver superior quality and long lasting durability in architectural products category, Kich was established as an export oriented unit in the year 1992. Although having a very humble beginning, Kich grew at a very fast pace due to unmatched quality and unique craftsmanship of its products.

Since inception, Kich has always fulfilled global quality parameters. Kich architectural products are the epitome of enduring strength, stunning aesthetics, unique designs and impeccable functionality. With a vast network of more than 50 product galleries, 3 application centers, 200 dealers and a team of more than 47 marketing executives across the country, Kich has always been able to deliver uncompromised pre and post sales service support to its customers. Besides being well-rooted in India, Kich has a vast sales and service network in Europe, Middle East and Africa.

With the splendid guidance of its founder Shri Chimanbhai Hapani and under the dynamic leadership of his three sons Mr. Bharat Hapani (Managing Director), Mr. Nitin Hapani (Director: Manufacturing) and Mr. Dinesh Hapani (Director: Export), Kich has always been able to achieve extraordinary progress with customer delight.

To suit its production objectives, Kich operates from a state-of-the-art manufacturing facility which spreads in 1,75,000 sq. ft. area in Rajkot. Kich also has multi-facility Corporate House which is rewarded with LEED India New Construction (NC) GOLD Rating by Indian Green Building Council (IGBC). This Corporate House empowers Kich to manage its entire pre and post sales service network with a great ease. Due to an in-house Design Studio, Tool Room, R&D Division and Product Testing Facility, Kich has succeeded in consistency of product performance.

## Quality Assurance

Quality Aspects alone determine ultimate fate of any product or brand. At Kich, quality norms under ISO 9001:2008 and international standards for quality management are deployed to give valuable edge to all the products. Kich takes meticulous care at each and every stage of manufacturing. Strict quality control measures are exercised at every stage, from input of raw material to finished products.

**Shri Chimanbhai Hapani receiving NATIONAL AWARD for BEST QUALITY from His Excellency, The President of India, Dr. A.P.J. Abdul Kalam at New Delhi**

#### **NATIONAL AWARD**

Kich is the first and only Indian company to win National Award for best quality in premium architectural products' category. His Excellency, The Former President of India, Dr. A. P. J. Abdul Kalam honored Kich with this prestigious award.

#### **ASIA'S MOST PROMISING BRAND**

Kich is selected as Asia's Most Promising Brand 2014 in architectural hardware products category for its innovative marketing strategies, tremendous growth and brand recall. Asia's Most Promising Brands exhibit a research-based listing of the most promising brands across the Asian continent. Research is executed by a World Consulting & Research Corporation (WCRC) and ibrand 360. To increase the authenticity KPMG played role for process evaluation.

#### **INDIA DESIGN MARK**

Kich's Handrail and Baluster Systems as well as Mortice Handles are first such products to get India Design Mark popularly known as I Mark. It is a certification granted by India Design Council, a National Strategic Body for multi-disciplinary Design in India, to those products which have high aesthetic design value, superior user potential, world-class quality and environment-friendly composition.

#### **AL- FUTTAIM EXOVA**

Kich's Handrail and Baluster Systems have been successfully tested by Al Futtaim Exova Testing (AFE) - Façade Testing & Advisory Services Division of Exova Group at Dubai in accordance with ASTM E 935-00, ASTM E 985-00 and ASTM E 2353-06 American Standards for Concentrated Load Test, Uniformly Distributed Load Test and Shot Bag Impact Test.

### INDIAN POWER BRAND

Kich is the first and only company selected as Indian Power Brand 2011-13 in architectural products' category by Indian Council for Market Research. Indian Power Brand is a research driven anthology listing out most powerful Indian companies, which are successfully taking on and beating their global competitors in their unique ways.

### IGBC MEMBER

Kich is the first member of IGBC (Indian Green Building Council) in premium architectural products' category to promote the green building movement in India. An application of Kich product contributes towards valuable 4 LEED points for green building project certification, because all the Kich products are crafted from raw material, which is recycled as well as recyclable.

### STAR – BRAND 2010 – 2011

Kich is the first and only Indian company selected as Star Brand 2010 – 2011 in premium architectural products' category. As a conclusion of pan India's research of the Indian Council for Market Research (ICMR) on the most impact creating brands of the country Kich was honoured with status of Star Brand 2010 – 2011.

### BODYCOTE

Kich is the first and only Indian company to have its products successfully tested for mechanical and product life cycle standards by Bodycote, world's largest and most respected provider of independent testing services, operating with over 300 laboratories in 30 countries.

### WARRINGTON FIRE

Kich is the first and only Indian company having premium architectural products certified for fire safety standards by Warrington fire (UK), the leading independent fire testing, consultancy, research, fire engineering and certification organization. It provides product testing in the field of fire protection covering comprehensive range of architectural hardware products.

### ISO 9001:2008 CERTIFICATION

Kich is the first Indian company to acquire ISO 9001:2008 certification for manufacturing and supply of Architectural Products to Domestic and International market. The certification is done by a prominent German Agency.

### CORROSION RESISTANCE

Kich is the first Indian company to launch premium Bathroom Accessories in corrosion resistant high grade AISI 316 stainless steel. Due to highest quality of raw material, Kich products withstand the corrosion caused by atmospheric effects, chemical reactions and high temperatures without going under any deformity.

Kich is the First Company to introduce 'Knock-down' Handrail & Balustrade System in Indian Market.

### Our Mission

To serve our customers with uncompromising commitment, excellent quality and reliable services, thus offering them value for money.

### Our Vision

We endeavor to emerge as a no. 1 player in architectural hardware segment by encouraging a culture of mutual trust and satisfaction.

### What Makes our products Unique...

The first and foremost factor affecting reliability as well as cost of any product is its Raw Material. Almost all KICH products as well as their internal components are developed from Stainless Steel confirming to AISI 316 Grade Stainless Steel which is Highly corrosion resistant and resist the adverse effects of chemicals.

The following table presents main elements (forming the Chemical composition) of AISI 316 Grade Stainless Steel as compared to other cheaper grade steel such as 304, 202 or even claimed to be 316 by many other manufacturers.

### Chemical Composition In Percentage

Element %	202 Grade	304 Grade	316 Grade	Implications
Carbon	0.15	0.08	0.08	Increase in percentage decreases the corrosion resistance.
Silicon	1.00	1.00	1.00	-
Manganese	7.5 to 10.0	2.00	2.00	Affects the magnetic characteristic and hardness of Iron
Phosphorus	0.06	0.045	0.045	-
Sulphur	0.03	0.03	0.03	-
Chromium	17.0 to 19.0	18.0 to 20.0	16.0 to 18.0	Addition of 12% forms stainless steel from ordinary steel. Removes the corrosive effect of Carbon. Forms a passive film which prevents oxidation & consequent corrosion.
Molybdenum (MOLY)	NIL	NIL	2 to 3	Molybdenum increases the corrosion resistance. It has a superior tensile strength at high temperature as compared to 304 Grade steel. This element can resist major chemical reaction and thus being a very costly element.
Nickel	4 to 6	8.0 to 10.5	10.0 to 14.0	Nickel provides corrosion resistance, increases strength in both high & low temperature, increases toughness in low temperature and lowers the effects of work hardening. Thus higher percentage makes the steel superior in quality.

Effect of Chemical Testing done by our R & D department on various Grades of Stainless Steel Handles

## Key Features of AISI 316 Grade Stainless Steel

From the given table and chemical tests conducted by our R & D department, few unique characteristics of AISI 316 Grade Stainless Steel are simplified and summarized below:

- It can withstand the corrosion caused by atmospheric / environmental or major chemical reactions.
- It can resist high temperatures without going under any deformity which makes it highly recommended for fire safety doors in any building.
- It has remarkable creep strength and Rupture strength.
- It repels the Bacteria which makes it ideally suitable material for the venues such as Hospitals, Educational Institutes, Hotels and even at home and office where higher degree of hygiene is required
- Due to its natural finish, Product does not require regular cleaning or maintenance making it most suitable for public places.

### Why KICH ?

**"Quality Can not be Defined, It can only be Experienced"**

- KICH products are made of Corrosion Resistant High Grade AISI 316 Stainless Steel while other manufacturers use 304 or 202 common steel grades.
- KICH products are made out of 1.5mm metal thickness compared to 1.2 mm thickness offered by standard manufacturers.
- Our Mortice handles, Pull handles and many other products are enhanced with high grade brass bushing which can tolerate forceful and intense use of doors.
- Long bush accommodates more threads increasing strength and life cycle of products.
- Specially developed Fixing Stud and Grubs ensure accurate fitting of handles and eliminates shaking of handles which may sometime even lead to breaking of glass doors.

## Things Looking similar may be Quite Different Inside !

As KICH products are manufactured only from the Highest Quality raw material with utmost meticulousness, a little higher cost is unavoidable, however considering:

- High benefit/cost ratio
- Lifetime trouble free functioning with zero maintenance cost
- Longer Life cycle cost analysis
- Prompt Pre & After Sale services

KICH products assure peace of mind and the best reward for money spent by the customer.

I believe in Consistent performance  
I believe in Powerful performance
